## CAMBER CAPABILITIES

In the areas of Computer-based Training (CBT), Web-based Training (WBT) or Interactive Multimedia Instruction (IMI), Camber's Training & Technology Division is a leader in all forms of technology integrated multimedia instruction and other forms of Advanced Distance Learning (ADL). Camber develops IMI products using the principles of Instructional Systems Design.

### What We Do

- ADL, IMI, WBT, CBT, Distance Learning Courseware Development
- Application Development
- Blended Learning Solutions
- Curriculum Design & Development
- Data Warehousing & Information
- Distribution Databases Development, MS SQL, Access
- Digital & Analog Doctrine, Tactics, Techniques & Procedures (TTP)
- Doctrine Reviews
- Electronic Mentoring
- Electronic Performance Support Systems
- Equipment Simulation
- Extensive Network of Military SMEs
- Formative Evaluations
- Front-End Analysis
- Functional Area Assessment
- Gaming and Simulation Development
- Instructor-led or Self-paced Instruction
- Interactive Simulations
- Interviews and Focus Group Facilitation
- Job and Functional Requirements Analysis & Definition
- Joint Transformation Doctrine Development
- Knowledge Management
- Leader & Staff Training Exercises & Doctrine Development
- Learning Management Systems
- Multimedia Technologies
- Peacekeeping and Stability Operations Training
- Performance Assessment
- POI Development
- Policy/Procedure Assessments
- Quantitative & Qualitative Research
- Required Security Clearances
- Scenario Development
- Serious Games, Game/Simulation-based Training
- SOP Development
- Staff Training
- Systems Integration
- Tabletop Exercises
- Training Experience with Active and Reserve Component
- Training Experience with the Current & Future Force
- Training Management
- Training Support Package Development
- Turn-Key End-to-End Training Programs
- Validate Training
- Website Development
- 3D Modeling

### How We Do It

- Analyze Options and Prepare Solutions
- Assess Your Needs
- Client Collaboration
- Concurrent Development Process
- Efficient Incorporation of SME inputs
- Employ Skilled & Experienced Technicians Using Defined Methodologies
- Establish Standards & Measurable Metrics
- Highly Trained/Educated Professional Staff
- Instructional Systems Design
- Integrated Development Teams
- QA Actively Employed at the Production, Project Management & Program Levels
- Quality is Defined by Our Clients
- Recommend Cost Effective Approaches
- SCORM 1.2 & 2004 Development & Consulting
- Spiral Development
- State-of-the-Art Multimedia & Authoring Tools
- Use Independent Evaluators
- Use Microsoft Project
- Use of Rapid Prototypes 508 Conformance
